

# NorDav

NORWEGIAN SWIVEL DAVIT SYSTEM

**Functional davit system for your boat**

# ROBUST AND DURABLE DAVIT SYSTEM, EXCLUSIVE, SLEEK AND DISCREET

NorDav is a high-end davit system that simplifies travel with a dinghy or jet-ski on the swim platform. NorDav works well with narrower swim platforms than traditional davits and is capable of handling heavy dinghies and jet skis as well as light rigid hull Inflatables.

NorDav is the most robust and professional system on the market. Great design, solidly built to outlast your boat. Maintenance free electropolished stainless steel. Designed for performance in use and ease of installation. NorDav, is davits, only davits.

**Black H-shape HD**

**Black V-shape HD**

The real differentiator, NorDav has the greatest step-out on the market ! Increased step-out capacity allows side retrieval which is a great benefit on smaller swim platforms or with longer dinghies.

- Easier to use
- Less swivelling with your dinghy on top
- Allow longer dinghy
- No additional platform extension plates required

## Technical data

### Dimensions:

930 x 350 x 150 mm.

### Max. Load Capacity:

500kg/ 1100 lbs

### Weight (Approximate, varies with model)

22-28kg/48-62 lbs
